

LEADERSHIP DEVELOPMENT PROGRAMME

The Leadership Development Programme is designed to help companies become more productive and competent in the workplace by developing the skills and knowledge of team leaders, managers and supervisors.

This programme is designed to help employees develop the essential personal and occupational skills which will enable them to be effective teamworkers.

Business Benefits

Upon completion of this programme, your candidates will have developed the essential skills to:

- improve process efficiency and drive down costs
- improve and manage flexible working methods and teamworking
- increase individual employee motivation and performance
- effectively communicate company objectives
- solve problems and make effective decisions
- lead continuous improvement

Programme Delivery

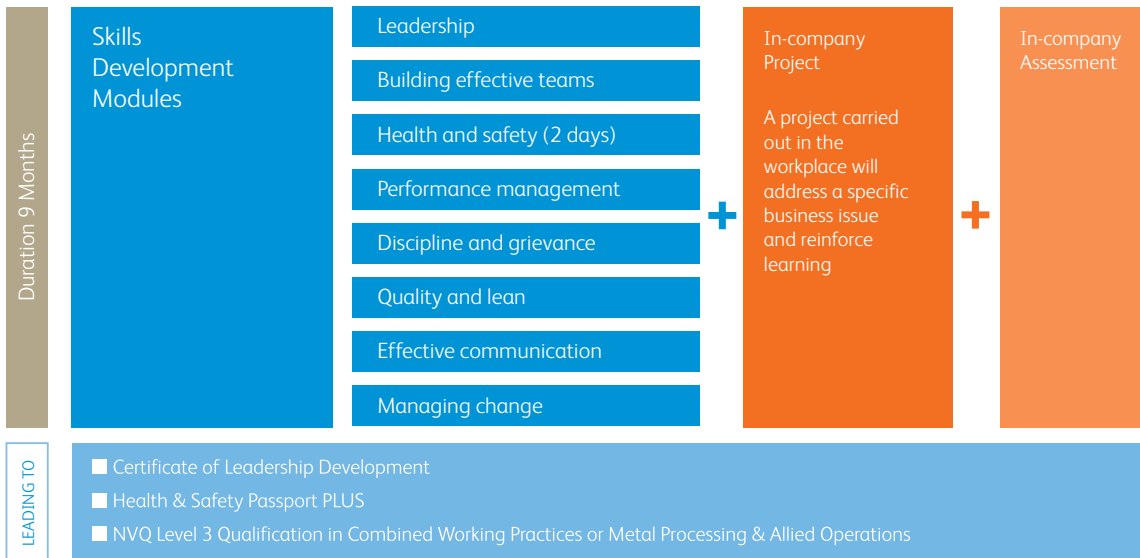

This programme combines first-class training and on-the-job assessment in one easy to access package:

- training is delivered through facilitated workshops, encouraging active participation
- training and assessment is delivered at times that are most convenient for your company
- full tutor and mentoring support is provided for the duration of the programme
- a high quality practical candidate workbook covering each module is provided
- all administration and practical arrangements are undertaken by the National Skills Academy for Manufacturing

Health & Safety Passport PLUS

The Leadership Development Programme can be delivered to incorporate the Health & Safety Passport PLUS. This is the industry's certification acknowledging that employees at a supervisory level have the ability to support health and safety procedures and ensure the effective implementation of good health and safety practices throughout the workplace.

N.B. Health & Safety Passport Plus is optional and issued providing that 2 days of Health & Safety training have been completed.

Assured Excellence

The National Skills Academy for Manufacturing (the Skills Academy) is a beacon of security for employers. All providers delivering the Skills Academy's products have successfully completed a thorough validation process, proving their competence to deliver world-class subject knowledge through leading-edge training and techniques tailored to the manufacturing sector. This ensures they deliver the best content in the most powerful and cost-effective way possible, so that programme members receive the best value training to world-class standards.
