Essential Skills for Problem Solving

Welcome to Semta's National Skills Academy for Manufacturing Essential Skills for Problem Solving programme.

The site you are currently on is the pre-learning page which holds information and activities for the course you are about to take. The programme is engaging, fun and rewarding, it also offers opportunities to learn a number of new skills that you can put to great use in all learning and work situations.

The course has been designed to:

- Provide a basic understanding of the main principles of and in-company processes for problem solving skills
- Help improve the literacy and numeracy of the participants
- And to enable participants to develop learn to learn and study skills for further study, for example NVQ's

We hope that this page will give you a good idea of what you will be undertaking and we wish you all the best for a productive and enjoyable learning journey.
